Ken –

Attached you'll find a letter from Administrator Pruitt on the study that I believe you are referring to. Please let me know if you have any other questions. In addition, EPA New England's Regional Administrator attended the National Leadership Summit on PFAS and spoke on one of the panels yesterday, is available if you would like to have a phone interview. I've cc'd my colleague Dave Deegan who can help arrange that. Please don't hesitate to reach out!

Also, here's a bunch of materials from the meeting:

- [Agenda \(dated May 18, 2018\)](#)
- [Meeting Presentations](#)
- [Multimedia](#)
- [List of Confirmed Organizations \(May 22, 2018\)](#)

=====

Hi,

I'm a reporter for the Telegraph in Nashua, NH who is working on a story about the chemical study that hasn't been released by the EPA. I've read about that, but can't find the actual study that won't be released. Is the study available online? I've covered PFOA contamination in Merrimack, NH and would like to report on this study, so please contact me with information on the study and EPA's role in it. Thanks for your help,

Ken Liebeskind -- Personal Phone / Ex. 6
